Old News and Events:

Well the event in December produced some fun little waves out the front of Calypso. Thanks to those who attended to be able to make it an event. You know who your all are.

THE CHRISTMAS PARTY was held in the park opposite Calypso Resort & thanks to all of those who stuck around to share & beer & some grub.

The Swell hit the coast in the days leading up to Christmas & produced some amazing waves all over south east Qld. Hope everybody got the chance to get out there & enjoy some of the big swell between Christmas & new years

The swell forecast for this Sundays event looks promising for a fun sized swell & some cleaner conditions compared to the last weeks dribble.
